

Amendments to the Specification

Please amend the Specification as follows:

Page 1, after the title, insert the heading and subheading:

--BACKGROUND OF THE INVENTION--

--FIELD OF THE INVENTION--

Page 1, prior to the second paragraph, insert the heading:

--DESCRIPTION OF RELATED ART--

Page 1, please amend paragraph number 2 as follows:

Cleaning of sewage water from separate building or roads or small groups of houses has up til now been effected by a low degree cleaning with sludge separators, such as three compartment septic tanks. The water flows by gravity to the well in which coarse pollution sediment at the bottom of the wells. [[1-2]] One to two times a year the well is emptied.

Page 2 please amend the paragraph 2 as follows:

Appl. No. 10/019,773
Amndt. dated November 25, 2003
Reply to Office Action of August 27, 2003

Even if the use of sludge separators is an inexpensive and simple measure, the described cleaning measures, in accordance with higher environmental consciousness, are insufficient since they do not fully take care of biological material and/or phosphorus and not at all take care of heavy metals, which therefore come with the water to the recipient.

Page 2, prior to paragraph number three, insert the heading:

--SUMMARY OF THE INVENTION--

Page 2, prior to paragraph number five, insert the heading:

--BRIEF DESCRIPTION OF THE DRAWINGS--

Page 3, prior to paragraph number 5, insert the heading:

--DESCRIPTION OF THE PREFERRED EMBODIMENTS--
